

The City of Man (Paperback)

By Brandon Butera

Outskirts Press, United States, 2015. Paperback. Book Condition: New. 201 x 117 mm. Language: English . Brand New Book ***** Print on Demand *****.Why do humans exist? What is our purpose in life? How did we get here? William Natas, a Harvard scientist and professor, has been on a mission to change the world by answering these questions. After years of research and labor, he has finally solved the most complex theory in science, and with it, believes he can unveil many of the mysteries of life, including the answers to these questions. He thinks the answers have nothing to do with religion, and, therefore, sets out to eliminate the institution from the planet. After he consults his colleague John Mandeus about his discovery, however, John is not excited about it. He fears what the discovery means for the world and what Natas intends to do with this knowledge and power. He argues that religion is necessary for the survival of morality and happiness in the world. He insists that, without it, society would fall apart. Nonetheless, John's warning is not heeded. Natas releases his theory to the world, and all of the leading scientists back his theory, except...
