

Smithson s Theory of Special Creation (Classic Reprint) (Paperback)

By Noble Smithson

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Smithson s Theory of Special Creation A critical reader of the works of Darwin, Huxley, Spencer, Haeckel, Romanes, Weismann, Mivart, Cope and other writers, on organic evolution; will find that there is much diversity in the views of these writers. Darwin believes that the first one, or the first few, animals and plants were directly and specially made by the Creator; Haeckel says the primordial forms arose by spontaneous generation from inorganic matter. Referring to the origin of life, Romanes says that science is not in a position to furnish so much as suggestion upon the subject. Neither Huxley, Weismann, Mivart nor Cope has anything to say on the origin of life. No two of these writers agree as to the work of the factors of evolution. According to Darwin, Romanes and Weismann, natural selection did substantially the entire work of evolving all the species of animal and plant. But Cope, and other evolutionists of the Lamarckian school, hold that use, disuse, pressure, friction and motion did it. Weismann argues that the inheritance of acquired...
