Through fiscal year 2010, the Department of Veterans Affairs (VA) permitted its 21 health care networks to develop their own methodologies for allocating resources to medical centers. These methodologies varied considerably. Concerned that network methodologies were not fully transparent to VA headquarters, in fiscal year 2011, VA implemented a new single process for all networks to use to determine allocations to medical centers. VA headquarters retains overall responsibility for oversight of VAs resources, including ensuring networks do not spend more than the resources available. GAO was asked to review how VA networks allocate resources and how VA oversees these resources once they are allocated. In this report, GAO describes (1) VAs new process for networks to use in determining allocations to medical centers, and (2) how VA centrally monitors these resources. To do this work, GAO reviewed VA documents describing the new process and VAs monitoring efforts, in light of federal internal control standards, and interviewed VA officials. This item ships from La Vergne, TN. Paperback.
