Cornell University Press, Ithaca, 1997. Hardcover. Book Condition: New. Dust Jacket Condition: New. First Edition. Traces the role of American and Canadian psychiatrists in the eugenics movement of the late 19th and early 20th centuries. Dowbiggin portrays these psychiatrists, especially those working in mental institutions, as neither heroes nor villains but as public servants caught up in the progressivism of the times, pressured by governments and officials to change the focus of their profession from managing custodial care to implementing cost-effective treatment of mental disorders. Focusing on the professional careers of prominent psychiatrists G. Alder Blumer, C.K. Clarke, Thomas Salmon, Clare Hincks, William Partlow and their colleagues and successors, the author demonstrates how psychiatrists under the influence of the eugenics movement often advocated, and sometimes protested, the regulation of marriage, reproduction, immigration, and segregation of the mentally handicapped. Size: 8vo - over 7¾" - 9¾" tall.
